Subject: RE: WV needs assistance in developing MCL/MCLG for crude MCHM

I spoke with Vicki Binetti (the Deputy WDD for drinking water) in Region 3 this afternoon and she asked that we hold off on taking any action since they were not aware of any such request coming out of WV's drinking water office.

Eric Burneson, Acting Director

Standards and Risk Management Division

Office of Ground Water and Drinking Water

US Environmental Protection Agency

I am looping OGWDW in on this. They have been working with this issue in another venue. I hate to see us trip each other up. Who is the contact in WV?

Subject: WV needs assistance in developing MCL/MCLG for crude MCHM

Hi all,

I just got a note from R3 asking who a POC might be for WV to work on an MCLG for crude MCHM. It sounded from Betsy S's update in the SHPD biweekly this morning that Beth's folks had been working furiously last week to pull the most recent data on this chemical.

Beth – do you have someone in your branch that would have availability to work with WV? I'm checking with them on timing.

Thank you,

Erica
